

# DANISH CANCER RESEARCH DAYS

26 & 27 AUGUST 2021

RESEARCH - CLINIC - FUTURE

February 2021

## Call for abstracts

### Background

Danish Cancer Research Days 2021 is the largest Danish cancer conference, which brings together researchers, clinicians, patients, and policy makers. We will again this year invite selected submitters to present their research on stage. Danish Comprehensive Cancer Center (DCCC) and the Danish Multidisciplinary Cancer Groups (DMCG.dk) hope to see you at the 3<sup>rd</sup> Danish Cancer Research Days.

### Invitation to present research findings

During the conference, we would like to present current research covering the entire Danish cancer field. We invite all those interested to submit abstracts on research projects, clinical trials or other research activities related to cancer. Abstracts will be evaluated on the basis of cancer relevance as well as on the outcomes, quality, and generalisability of the research. In addition, the perspectives of the project; how newsworthy the study is and the extent of the national embedding will be taken into consideration. Abstracts on ongoing projects and clinical protocols are also welcome.

### Poster presentation

This year the poster session will be virtual and accepted posters will be accessible online only for registered participants from mid-August to mid-September.

Submitters of accepted abstract will be required to send in their poster in pdf-format, possibly including a video presentation. More information to follow.

Please note that the poster must be publishable by the organisers on social media and websites during or immediately after the conference.

### Presentation on stage

Seven abstract submitters will be given the opportunity to present their research on stage in the session '*Aktuel dansk kræftforskning i rampelyset*' / '*Current Danish cancer research in the spotlight*'. After submission deadline, seven presenters will be selected; information about this process will be sent directly to the selected presenters. The criteria for selection are originality, scientific quality, and cancer relevance.

### Formal requirements

We call for abstracts within **the entire cancer field**. The categories in the submission form are as follows; please choose the most fitting category.

- Personalised medicine, biomarkers & diagnostics
- Clinical trials
- Emerging treatments
- Treatment morbidity and late effects
- Patient involvement
- Palliation and psychosocial support
- Clinical epidemiology and database research
- Screening
- Other

# DANISH CANCER RESEARCH DAYS

26 & 27 AUGUST 2021

RESEARCH - CLINIC - FUTURE

February 2021

## Abstract submission

Please submit the abstract through the link below.

<https://dcccancer.wufoo.com/forms/gqahmnl1agg5mx/>

Regrettably, it is not an option to save the content whilst working on the form, so please prepare all information prior to filling in the form. Please be careful that all information, titles, grammar etc. is correct, as the text will be used to generate an electronic abstract book for all participants at Danish Cancer Research Days which will be accessible online as previous years.

### The form is structured as shown below

Abstract title: Max 250 characters including spaces.

Category: Choose the most fitting of the given categories.

Presenting author: Please enter your full name as follows: e.g. Peter Sindbjerg Petersen.

Presenting author's email: Only one abstract is allowed per presenting author.

Please enter the email address, where we can best reach you.

Presenting author's title:

Presenting author's affiliation: Department, Institution.

Authors and affiliation: Please list **all** authors (please include presenting author again) with last name followed by initials, followed by department and institution (e.g. Pedersen, P.S., Department of Nuclear Medicine, Aarhus University Hospital). If two or more authors share the same affiliation, please use numbering.

Please consult the abstract book from DKD-2019 if in doubt; [https://www.dccc.dk/siteassets/danske-kraftforskningsdage/2019/abstracts--posters/abstract-book-dkd-2019\\_final\\_120919.pdf](https://www.dccc.dk/siteassets/danske-kraftforskningsdage/2019/abstracts--posters/abstract-book-dkd-2019_final_120919.pdf)

Abstract text: Please structure as follows and please include these headlines in the text:

Introduction| Materials and Methods| Results| Conclusions.

Max. 2000 characters including spaces. It is NOT possible to upload tables and figures.

The presenting author is responsible for presenting the poster. Only one abstract per presenting author is allowed.

Abstracts and posters can be made and presented in either Danish or English according to your preference.

## Submission deadline

We request that you submit your abstract through the link above no later than 28 April 2021.

Information regarding acceptance will be sent to the listed e-mail address by 4 June 2021.

Separate information will be sent to those who are selected to present on stage.

## Registration for the conference

Registration for the conference opens early May on [www.dccc.dk](http://www.dccc.dk) and [www.dmcg.dk](http://www.dmcg.dk) and ends early July.

Please note: submitting an abstract is **not** a registration for the conference.

## Questions

Questions are welcome at [dccc.info@dccc.dk](mailto:dccc.info@dccc.dk)

An FAQ can be found at [www.dccc.dk](http://www.dccc.dk) or [www.dmcg.dk](http://www.dmcg.dk)
